

Mary Humiston
Senior Vice President
Global Human Resources
Applied Materials, Inc.

As senior vice president of Global Human Resources, Mary Humiston is a member of Applied Materials' senior leadership team and leads an HR organization that provides significant value to the company's four business segments. This includes an HR strategy focused on best-in-class solutions for talent and leadership development, organizational effectiveness, performance management and rewards. In addition, Humiston and her team are delivering innovative new tools, technology and HR metrics to enable strategic workforce management while enhancing the manager and employee experience. By providing solutions that are aligned with the needs of the business, Humiston's HR organization is playing a key role in driving Applied's customer focus, business results, innovation and growth.

Humiston started her career with Applied as corporate vice president of HR for the company's Energy and Environmental Solutions group and the Display SunFab Solar group from June 2008 to June 2009. She was corporate vice president of Global Human Resources from July 2009 to July 2011.

Prior to joining Applied, Humiston was a vice president of HR at Honeywell International with responsibility for various corporate and international organizations and held executive positions with PeoplePC (now Earthlink) and Gap, Inc. She began her career at the General Electric Company in the HR Leadership Program and spent three years in Finance on the company's Corporate Audit Staff.

Humiston is from upstate New York, and has lived in both Asia and Europe. She earned a bachelor of science degree in psychology at Siena College and an MBA and master of science degree in industrial psychology from the Rensselaer Polytechnic Institute.
