

TIM DEANE

Senior Vice President
Applied Global Services

Tim Deane is Senior Vice President of the Applied Global Services organization for Applied Materials. He leads the services business supporting customers in all market segments.

Mr. Deane has significant experience with customers and a deep understanding of the company. He previously led Field Operations and Business Management for the Semiconductor Products Group, where he drove improved accountability, transparency, and execution in support of the company's rapid growth. He joined Applied Materials in 1995 and has spent nearly 20 years in the field, including 12 years in Account Management and more than eight years as an Account General Manager and two years as a Region General Manager.

Prior to joining Applied, he completed the Navy nuclear training pipeline and was a commissioned officer in the submarine program. Mr. Deane holds a bachelor's degree in Engineering from the United States Naval Academy and a Master of Business Administration degree from Chaminade University of Honolulu.
